ANTIBACTERIAL HAND SANITIZER

Olivenz Antibacterial Hand Sanitizer is aqueous based with moisturiser and has been developed for use in all circumstances, including; in the work place, in the home, in public places, all domestic & international travel. Carry a supply with you at all times for moments when hygiene is a priority.

Ingredients: Aqua, chlorhexidine digluconate, guar gum derivative, phenoxyethanol, anhydrous betaine, benzethonium chloride and fragrance. The ingredients selected provide an essential high kill rate and leave the hands feeling soft and moisturised. Contains natural skin moisturising properties of vegetable origin.

Directions for use

Snap back and squeeze all contents into your hand. Rub in well and allow 60 seconds for hands to dry. Hands will be sanitized feeling soft and moisturized.

Highly effective.

Results reveal 99.99% Kill rate.

Tested independently by certified laboratory.
